About Me

Enthusiastic Computer Application graduate with a knack for coding in **MERN** Stack Development. Built dynamic web applications using **React** and **Node.js**. Ready to dive into the tech world and innovate! Committed to continuous learning and growth in the software development field.

Education

SRM Institute of Science and Technology, Chennai.
Bachelor's Degree, CGPA: 7.0, Completed in 2022

St. Aloysius Higher Secondary School, Marthandanthurai.
HSC, 58%, Completed in 2018

St. Nicholas High School, Neerodithurai.
SSLC, 78%, Completed in 2016

Experience

MERN Stack Developer
Lumiar Technolab, Kochi, Kerala.
August 2023 - Present

- Developed and maintained ReactJS-based web applications.
- Collaborated with senior developers to implement responsive front-end features, enhancing user experience.
- Implement intuitive user interface, state management using libraries like Redux.

Skills

- **Programming:** HTML, CSS, JavaScript
- **Frameworks/Libraries:** React, Bootstrap, Express.js, Node.js
- **Databases:** MongoDB
- **Version Control:** Git, GitHub
- **Other:** API Integration, Redux

Projects

Weather App: https://subith-weatherapp-task.netlify.app

- Developed a web application using react that displays current weather conditions and forecasts for any location.
- Integrated OpenWeatherMap API for real-time weather data fetching and dynamic updates.
- Implemented responsive design to ensure compatibility across devices.
- Focused on improving user experience through an intuitive interface and clean design.

Ekart: https://subith-e-cart.netlify.app

- Developed a user-friendly e-commerce platform using react that allows customers to browse products, add items to the cart.
- Implemented dynamic components, routing, and responsive design to enhance user experience.
- Integrated RESTful APIs for product data and user authentication.
